## PROJECTS

### Brain Signal Analysis

- Me and my team developed an AI model which evaluated the EEG signals coming out from our brain collected through a MUSE headset to detect the emotion or the mental state of a person.

### EcoFuture - Landing Page

- Built a fully responsive calculator using HTML & CSS, leveraging Flexbox and media queries for seamless adaptability across devices. Implemented keyframes animations and various CSS properties to enhance the UI, ensuring a smooth & visually appealing experience.

### Calculator - Web App

- Developed a responsive calculator using HTML, CSS, and JavaScript, featuring a user-friendly UI, basic arithmetic operations, error handling, and keyboard support. Focused on clean code, optimized performance, and cross-device compatibility.
