PROJECTS & EXPERIENCE

Brain Signal Analysis

- Me and my team developed an AI model which evaluated the EEG signals coming out from our brain collected through a MUSE headset to detect the emotion or the mental state of a person.

Calculator - Web App

- Developed a responsive calculator using HTML, CSS, and JavaScript, featuring a user-friendly UI, basic arithmetic operations, error handling, and keyboard support. Focused on clean code, optimized performance, and cross-device compatibility.
- Hosted on [https://calculator-bice-nine-26.vercel.app/]

CodeSoft | Web Development Intern

- Developed three fully functional websites during my internship at CodeSoft, gaining hands-on experience in front-end web development. Worked with modern web technologies to design responsive and user-friendly interfaces.
